Education

MSc, International Economics and Business, Utrecht University **2015 – Current**

Thesis: 'Impact of a Target Firm's Advisor on M&A-deals', grade 8.0/10. Track: International Management.

Specialization on managerial decisions on a multinational scale like mergers, acquisitions, and foreign expansions. Additional focus on strategic decisions for firms and stimulating entrepreneurship and innovation within firms.

BSc, Economics and Business Economics, Utrecht University **2012 – 2015**

Thesis: 'Impact of agricultural tariff liberalization on agricultural productivity & undernourishment', grade 8.5/10.

Bachelor focus on basic theory of economics and business economics. The economic theory on a micro- and macro-scale is studied and applied to understand the whole economy and the smaller 'economies' within, like specific markets or companies. My specializations are international economics, strategy, and innovation policy. My courses are selected to gain a balanced view on the economy with application in both government and corporate world.

VWO, Christelijk Lyceum Veenendaal (CLV) **2006 – 2012**

Profile: Economy and Society (E&M). Optional courses: Management & Organization, Informatics, and German.

Interests and Skills

I am interested in the latest technological innovations and the impact they have on businesses and our society. In addition, understanding and improving stock value evaluation has my professional interest. I have been successfully investing in funds and stock markets since I was sixteen. Optimal stimulation of employees to foster innovation and performance likewise has my interest. I love cycling and fitness.

I am familiar with the Microsoft Office Suite and the Windows-, OSX-, and Ubuntu-OS. I have worked extensively with STATA for regression analysis and I have worked with Morningstar for stock and fund portfolio management. Next to this I have worked with Oracle Business Suite for processing bank transfers and suppliers.
